2018 ANNUAL APPLICATION WORKSHOP

April 11, 2017 - Newton

April 13, 2017 - Topeka

COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM

TYPES OF GRANTS

Community Improvement – Community Facility projects may consist of, but are not limited to, fire protection, bridges, community/senior centers, streets, architectural barrier removal, natural gas systems, electrical systems and public non-profit entities. Water and sewer improvement projects are in a separate competition and are also awarded once a year. Both categories together are called Community Improvement Grants.

Housing – The Housing program allows communities to apply for up to \$300,000 in grant funds. The eligible activities include homeowner/rental rehabilitation. This rehabilitation can be minor, moderate/substantial, reconstruction, historical preservation or lead-based paint hazard evaluation and reduction. Each community must complete a Housing Assessment Tool (HAT) and design a project supported by the needs described in the HAT.

Urgent Need – Urgent Need grants assist local governments in meeting community needs created by a severe natural or other disasters that pose an immediate threat to the health or welfare of the community for which no other financial resources are available.

Commercial Rehabilitation - Commercial Rehabilitation funds will assist private owners of downtown commercial buildings make repairs and improvements to address code violations in order to use the buildings to the fullest extent. The buildings must house viable businesses that will benefit from the improvements.

Economic Development - Cities or counties apply on behalf of a participating private for-profit company. The private business must have the ability to create or retain jobs and to service the debt involved in the project. The applicant may apply for up to \$35,000 per job, with a maximum ceiling of \$750,000. The minimum level of funding is \$25,000. At least 51 percent of the created or retained jobs must meet HUD's low-and-moderate income (LMI) test for the county in which the project is located.
